

KONSTANTINOS PANAGIOTIS RENTINAS

Junior Data Analyst | Business Information Systems Professional

Athens, 13121, Greece | +30 6981431294 | kostasrentinas@gmail.com

Results-driven professional with a strong foundation in **information systems, data analytics, and business strategy**. Specialized in Business Management and strategic planning, with expertise in optimizing operations through data-driven decision-making. Proficient in utilizing modern business tools such as **Power BI, Weka, ProjectLibre, and Draw.io** to design workflows, manage project schedules, and estimate costs. Committed to transforming data into actionable insights that support organizational objectives.

WORKING EXPERIENCE

Data & Business Systems Analyst

University of Northampton (MSC: 03/2024 – 01/2026)

- Designed and maintained **database systems**, including ERD frameworks and relational models, ensuring efficient data storage and retrieval.
- Applied **Business Intelligence tools** (Excel, Power BI, Tableau) to **analyze datasets**, generate insights, and support data-driven business optimization.
- Utilized **Weka** for statistical analysis and data mining to support strategic decision-making and identify emerging trends.
- Conducted **strategic business analysis (PESTLE)** to identify risks, opportunities, and environmental factors shaping organizational strategy.

PC Builder & Hardware Specialist | Freelancer

10/2018 – Present

- Designed and assembled custom PCs for gaming and office use.
- Sourced hardware components and optimized system performance.
- Installed software and ensured reliable operation.

Mechanical & Hydraulic Systems Engineer

114 Battle Wing (B.W.) of Tanagra (10/2015 – 07/2025)

- Managed mechanical and hydraulic maintenance for vehicles, special machines, and systems.
- Coordinated operational teams, assessed risks, and recommended process improvements.
- Prepared budgets, reports, and ensured efficient execution of maintenance projects. Supported inspections, repairs and servicing of tires, lubricants, and oil systems.
